in Architecture and the Built Environment

Call for Participation:

Design Thinking Lab 'Workspaces for DigitalYOU' November 22 – 24, 2018

Prototype your vision of tomorrow's workspaces with architecture, management & information technology.

6 interdisciplinary teams, 3 days, 3 ECTS*

The way we work is rapidly changing. Social and technological drivers transform how we interact. What are potential scenarios of working, co-creating and innovating together beyond the spaces we know today? How will we work in the future and how will we need to adapt our physical workspaces to incorporate the digital? What can the disciplines of architecture, management and information technology contribute together in this challenge?

Discuss these questions with professional facilitation of our experts to solve one of the most relevant topics across industries. Get inspired by new research insights and hands-on expertise looking at workspaces from a people-, technology- and building-driven perspective.

Create a compelling workspace experience for the future.

BauHow5 alliance, The Boston Consulting Group and IBM Watson IoT invite you to join a 3-day design thinking lab exploring 'Workspaces for DigitalYOU.'

Apply now.

Applications from
Master's students in

- Architecture
- Industrial Design
- Management
- Informatics
- Engineering

info@bauhow5.eu

until October 31, 2018

- a short motivation letter
- a short CV + average grade
- project portfolio

Please read the [data protection information](#).
By submitting your application, you confirm that you have acknowledged the above data protection information.

The workshop is part of the 3-year Erasmus+ Strategic Partnership "Strengthening Architecture and the Built Environment Research" (SABRE), conducted by five leading European universities in architecture and the built environment (BauHow5) and co-funded by the Erasmus+ programme of the European Union.

** Acknowledgements of ECTS subject to additional requirements and approval of each faculty.*
