in Architecture and the Built Environment

**Call for Participation:**

## Community Design Lab

‘Have we met?

Designing Social Hubs for  
Urban Nomads’

March 20 – 22, 2019

**Design your idea of tomorrow’s urban community  
where the analogue life merges with the digital.**

**8 interdisciplinary teams // 2,5 days // 3 ECTS\***

Digitally networked, locally at home! What role does community play in times when borders blur, when we communicate via networks and platforms, when we live and work on a project basis? A pop-up model between Open House and Open Source, non-binding and binding – depending on the stage of life? A further development of the Sharing Economy and Creative Commons?

Challenge these questions with experts, insight talks and experienced facilitators in an interdisciplinary workshop. Develop spatial, technological and social innovations for transforming a temporary community into a community of change agents, visionaries and entrepreneurs. Seed your idea of a new co-living model in Munich for the urban spaces of our world.

BauHow5 alliance, UnternehmerTUM, MINI Living and Detail invite you to join a lab ‘Designing Social Hubs for Urban Nomads.’

**Community needs you.**

**Apply Now.**

[www.coliving2020.de](http://www.coliving2020.de)

**Applications from Master’s  
students & interested parties in:**

Architecture, Industrial Design,  
Engineering, Management,  
Informatics, Sociology, Politics.
