

Call for Speakers and Participants

mobil.TUM 2019 – International Scientific Conference on Mobility and Transport is organizing its *1st workshop on Application of System Dynamics (SD) in Mobility and Transportation* on Sept 13th, 2019 at Technical University of Munich, Germany.

The aim of the workshop is to:

- Improve visibility of SD as one of the methods for analysing transportation systems from comprehensive or integrated perspectives in long-term horizons
- Engage researchers and industry peers in constructive discussions to strengthen SD
- Sharing SD related use cases, work-in-progress, ideas, etc. in transportation research

We invite abstracts for presentations in the workshop discussing the usage of SD in any aspects of mobility and transport such as Urban Transportation, Sustainability, Policy, Logistics, Businesses, etc. Senior researchers, Post-doctorals and PhD students are particularly invited to send abstracts of their research topics (completed / in-progress) to promote fruitful discussions followed by hands-on working sessions on specific topics by sharing ideas and feedbacks.

We also encourage general participation in the workshop. You only need to have basic understanding of SD. In this case, please register as a general participant.

A **tentative programme** of the workshop is given below –

Time	Agenda
09:30 AM – 10:00 AM	Introduction / Keynote Speech
10:00 AM – 12:30 PM	Presentations
12:30 PM – 01:30 PM	Lunch
01:30 PM – 03:30 PM	Working Sessions on Impacts of Future Transportation Systems on Sustainable Mobility (working title, subject to change)
03:30 PM – 04:00 PM	Concluding Remarks

The detailed agenda with speakers, titles of presentation and working sessions will be updated after the abstract submission process.

Important Dates:

- Abstract Submission for Presentation (200 – 400 words): 30th June 2019
- Confirmation of Acceptance: 31st July 2019
- Speaker Registration Deadline: 15th Aug 2019
- General Participation Deadline: 31st Aug 2019

For abstract submission, registration as general participant or any queries please contact:
